STATE OF THE TOWN ADDRESS
March 6, 1973

The Town of Weare is experiencing a growth pattern that is likely to double in the next five years. In 1972, the Selectmen assessed new properties in the amount of $638,220 at 61%, or a little more than $1,000,000 at 100%, a 6.9% increase over 1971. The 1971 increase was $326,855, a 3.7% increase over 1970. In the preceding five year period from 1967 to 1972, there was a 24% increase of assessed valuation.

During this five year period, your tax rate at $2.86 per $100 in 1967 increased to $4.30 per $100 in 1972. A whopping 50% increase due largely to increases in the school budget, but without any new construction. The total school-town budget rose from $227,325 in 1967 to $404,710 in 1972, a 78% increase. The school budget alone rose from $179,138 in 1967 to $352,589 in 1972, a staggering 97%.

These figures indicate the start of a development pattern true in many communities but most important to us since we are the principals destined to finance the future of this important business, "The Town of Weare". Prudent government and efficient management will be useless without controlling dangerous growth patterns that could result from an open back door. Therefore, it is imperative to plan our future development of our real estate assets from which we finance our business from the source of taxes. No business can run successfully without building up its assets and collecting its receipts. Proper land management and future planning are most important to the success of this town's basic tax structure. You as taxpayers are all partners in the business, you all own a piece of the action whether you accept it or not.

Lack of planning encourages waste of land, water, forest and tax revenue. It also can possibly close forever the chance to realize this town's best growth potentials. Poor planning will destroy the farmer, whom we depend on for the essentials in life. He will be hard pressed to give up his assets for the pressure of higher taxes burdened upon him by higher costs of community services. The aged will lose their homes since pensions and savings don't increase as rapidly as town expenses. Has your savings or pension increased 50% as your tax rate has in the last five years?

You, as taxpayers, will not be able to determine your own futures because of new pressures brought in by possible unscrupulous development causing higher expenses from acceptance of new roads, added school populations, increased police and fire protection and a possible soaring welfare cost. Remember, it's a possibility that a new fifty-house development could bring a hundred voters to this town meeting and force the town to accept a system of roads that could

cause a great expense to the taxpayers from inferior construction and a minimum size.

The Constitution of the State of New Hampshire provides us with the power to protect our community as stated in the following excerpts:

ARTICLE 2. All men have certain natural and inherent rights among which are the enjoying and defending life and liberty, acquiring and possessing and protection property.

ARTICLE 3. When men enter into a state of society they surrender up some of their natural rights to that society in order to ensure the protection of others.

ARTICLE 12. Every member of the community has a right to be protected by it in the enjoyment of his life, liberty and property; he is therefore bound to contribute his share in the expense of such protection and to yield his personal service when necessary.

These articles stress the fact that the freedom we have is also the responsibility to defend and protect our assets.

New Hampshire has 234 municipalities. 1967 records indicated 107 municipalities had zoning ordinances, 95 building regulations and 89 subdivision regulations. 1972 records show that 145 municipalities have zoning, 145 subdivision regulations, and 106 building regulations. "Weare has none."

Do these figures indicate that 61% of New Hampshire communities knew what is about to happen? Are these 61% giving up their personal freedoms to benefit others? Are selfish eyes and personal ambitions to profit from others the target of that 61% or are they aimed into the remaining unprotected 39%. Remember, Weare is a part of that unprotected 39% waiting with open arms.

In 1972 alone, there were 14 subdivisions approved by the State in Weare resulting in 226 saleable lots. Water Pollution Control approvals doubled over 1971. New registered voters in 1972 numbered 132. Real Estate transfers increased from 119 in 1968 to 182 in 1972, a 53% gain in five years.

Mobile homes increased from 49 in 1968 to 160 in 1972, a 226% gain in four years. Due to the fact that out of the taxes assessed per dwelling, dollar for dollar the average house picks up 74% and the mobile home 26%. Is this beneficial to our tax structure? To pay the expenses of the town, do we desire more mobile homes at the average assessment of $3,505, or is a house at the average assessment of $9,992 more attractive? To pay the expenses of the town, do we desire some small light industry or commercial property that doesn't add to the tax burden but reduces it?

Whatever the best revenues are they should be included in a unique planning package that would keep our tax rate stable without being

detrimental to the environment and beauty of this community. Also, this future planning should set guidelines of lot size so that population density won't dictate undue expenses or hardship upon taxpayers not using services required by a select few, such as sewage disposal or public water systems.

It is time to face the facts, your individual freedom is endangered by the lack of proper protection to insure progressive growth and development. You, as taxpayers and voters, have the responsibility to determine the future of the Town of Weare. You can be the vital forces to prevent it from becoming a dumping ground for society. You can cause it to be a profitable business venture with personality. You will solely be responsible for its growth, good or bad. Other communities that can't unite and resolve their differences through their own discipline to form a respected environment will extend their blessings of praise and admiration to you.

Only you can make it fly.

Board of Selectmen

RECORD OF SPECIAL TOWN MEETING
September 28, 1973

The meeting was called to order by the Moderator, Gordon M. Tiffany at 7:38 p.m. A moment of silence, during which the Moderator asked that Sarah Buxton, oldest resident of the town who passed away recently, be remembered, was followed by the pledge of allegiance to the flag led by James B. Craig.

The Moderator recognized the work Harold E. Thomson, Chairman of the Board of Selectmen, has done so that Weare is among one of the first towns in the State to act in regard to the flood emergency grants. The Moderator read the petition filed with and granted by Judge Waugh of the Superior Court giving permission to hold the Special Meeting. The Warrant was then read by the Moderator.

ARTICLE 1. To see if the Town will vote to apply for, receive and expend the sum of money allocated under the Federal Disaster Assistance Program in the amount of $5,206.63 to repair the damage done to town roads by the heavy rains and floods during July and August of 1973 or to take any other action in relation thereto.

The Moderator explained that the Town has to indicate (1) that it wishes to apply for these funds, and (2) that the funds will be used as specified.

A motion was made by Harry Chase to adopt the article. The motion was seconded. Ruth Jones asked how the amount was arrived at. It was explained that Federal agents designated to administer the funds visited the town and looked at the road damage. The determination of the amount in Article 1 was by the Federal authorities. The vote was affirmative.

ARTICLE 2. To see if the Town will vote to accept planned use report of Revenue Sharing Funds for the third (3rd) entitlement period from January 1, 1973 to June 30, 1973 as follows:

Public Safety	$ 6,000.
Tax Maps and related expenses	10,000.
Public Transportation-General Expense-Highway	3,000.
Health Department	2,000.
Financial Administration	2,090.
Total	$23,090.

or to take any other action in relation thereto.

The Moderator explained this was not to appropriate or increase funds that were already appropriated at the March Town Meeting.

Marjorie Eaton asked for an explanation of the term "public transportation". Selectman James Craig explained that the Highway Department would have to be listed under this category on the forms provided by the Federal Government.

Richard Hunter moved the article be adopted as read. The motion was seconded.

Ruth Jones asked for an explanation of "financial administration". The Selectmen explained that legal expenses, advertisement of legal notices in newspapers, clerical services, etc., could be included in this category of financial administration.

Harold Thomson told the meeting he hoped to be able to apply these amounts to the appropriations which were passed at the March town meeting for the several departments involved in order to keep the tax rate down for 1973. If the Tax Commission rules this cannot be done, the amounts would be applied toward 1974 appropriations. The vote was affirmative.

ARTICLE 3. To transact any other business that may lawfully come before the meeting.

As there was no further business, the article was considered to be dismissed.

A motion to adjourn the meeting was made by Malcolm Purington. The motion was seconded and the meeting adjourned at 7:58 p.m.

ANNUAL REPORT
of the
WEARE POLICE DEPARTMENT

The Weare Police Department received 1,210 calls during the past year; 615 of the calls were received on the Police line (529-2323), the remainder (595) were direct calls to the Chief and other officers. Calls handled covered a wide range of activities—information, assistance to stranded motorist, larceny, breaking and entering, missing persons, lost persons, assaults, assistance to other departments, auto accidents and a variety of other motor vehicle complaints making a total of 1,518 hours worked and 16,900 miles traveled.

Forty-three auto accidents were reported, which is one less than the number reported in 1972.

This department had 45 court cases in 1973. Juvenile complaints and larceny were some of the cases, but the majority consisted of motor vehicle violations.

This past year, we purchased our first Police cruiser. All our officers now have a plainly marked, fully equipped Police vehicle for patrolling and handling of complaints. We wish to extend our thanks and appreciation to the townspeople for providing this vehicle. We have had many compliments from other police agencies, and receive more respect from the general public.

Dog complaints were reduced by a large percentage due to the leash law passed at last year's town meeting, but there are still many dogs running at large. Once again, we ask the residents of Weare to please adhere to this town ordinance.

Once again, we have had a large number of breaks at summer camps and out-of-the-way summer homes. A large number of these breaks are not discovered for quite some time, thus making the apprehension more difficult of the persons responsible.

This coming year, we hope to establish weekday patrols as well as weekends, providing we have the necessary funds and have no difficulty obtaining gasoline.

This spring, the New Hampshire Police Standards and Training Council has scheduled a school for part-time police officers. It is my hope that all of our personnel will be able to attend. Hopefully, we will be able to make other arrangements with the New Hampshire State Police and Hillsborough County sheriff's Department for further training.

In closing, I would like to request all residents of Weare to please observe any unfamiliar vehicles or persons in their area and, if possible, to copy down the registration number and call this department at once! Thank you.

Frederick Cleveland, Chief

ANNUAL REPORT OF THE WEARE FIRE DEPARTMENT

Thirty-five alarms were answered during 1973, which is about average in Weare. Three building fires, 5 chimney fires, 2 defective stoves, 1 car fire, 1 electrical fire in a partition, 1 false alarm and 9 brush and grass fires.

There were 9 calls to the town dump due to dryness and the State ban which meant dump fires had to be controlled.

Home fire in Weare: The losses were quite large and covered by insurance. A fire in Deering was believed caused by a chimney fire earlier in the day. The total losses were very little with very little insurance.

Most of these fires were caused by carelessness in one form or another.

The brush and grass fires were somewhat higher due to the dryness of the season and one brush fire was of suspicious nature.

A number of Mutual Aid calls to other towns were answered.

The new Fire House at the Colburn Cottage area (Lakeview) with old Number 4 tanker proved very useful in two fires in that area with the complement of men in the area who take care of that Fire Station. As you recall, this new fire station was deeded to the Town of Weare at the last town meeting.

The Fire Department answered a few requests from organizations in the Town to talk on fire and rescue activities. The Fire and Rescue Department put on a demonstration at the elementary school for Fire Prevention Week in October.

The Weare Fire Department held several drills during the year. The Basic Fire Training Course was held every Wednesday night for three hours for a period of 2½ months and was well attended by the men of the Fire Department.

The men of the Weare Fire Department went to the Concord Fire Department for a Sunday fire drill and a basic course at the drill yard.

General maintenance was done to all Fire Department vehicles where the budget would allow. Painting and repairs were done where needed, driveways were paved and new batteries were purchased for Engine No. 2 and Engine No. 3. A new furnace was installed in Engine No. 3 Fire Station at Sugar Hill. The work was done by the men of the Fire Department at little or no cost to the Town of Weare.

Two new Scott air packs and extra air bottles were purchased plus a few net hats, coats, helmets and pairs of gloves and boots.

Wood stoves have been put into operation and the wood was cut by the men in the Town Forest. The use of the wood will relieve the consumption of oil due to the Energy Crisis.

Red Network calls in Weare for the year of 1973 numbered about 342. Rescue calls numbered 82, calls for Police on the Red Network numbered 100 plus. Calls for information, public service, Town Clerk and wrong numbers totaled 85. It might be well to note that false alarms are just as hazardous as if it were the real thing.

Many hours were put in by Rescue Squad members. Now, under new State laws, two licensed attendants shall be on rescue vehicles on every call. Drivers do not have to be licensed. There are 17 duly licensed men, as well as the Department and the vehicle. Every year on September 1, these licenses have to be procured. The cost is $25.00 a year.

Several members of the Rescue Squad are taking a new course called Emergency Medical Technician Course which is being given at Henniker this Spring.

As a reminder, it is unlawful to burn without a permit from the Forest Fire Warden when the ground is not covered with snow.

As another note, State and Federal Laws that come under the dutires of the Fire Department and the chief are as follows:

(1) No person shall use or allow to be used a portable wick type heater in any building which is used in whole or in part for human habitation. Whosoever violates the provisions of this section shall be punished by a fine of not more than $100.00

(2) No person shall install or use in any building which is used in whole or in part for human habitation an unvented space heater which uses gas or oil as fuel. Whosoever violates any provision of this section shall be punished by a fine of not more than $100.00.

(3) Whosoever desires to install any fuel oil burner shall first make application to the Chief of the Fire Department and obtain a permit therefore.

Upon receipt of an application for the installation of an oil burner, the Chief of the Fire Department shall grant a temporary permit authorizing such installation.

Upon completion of the installation, the temporary permit shall be cancelled, and provided that all rules contained in this regulation have been complied with, the Chief of the Fire Department shall issue a permit for the storage of oil and the operation of the equipment.

Remember, this is a State and Federal Law—it is not a Town Ordinance.

Please feel free to call 529-2834 nights and weekends and your Fire Chief will gladly come and inspect any and all heating systems.

Please call the Department for any reason and we will try to help you.

FIRE AND EMERGENCY NUMBER – 529-2333.

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

The New Hampshire Forest Fire Service is represented in every town, city or unorganized place in our State by the forest fire warden. Anyone wishing to kindle an outside fire when the ground is not covered with snow must first obtain the written permission of the fire warden. Except for cooking fires, no fire can be kindled between 9:00 a.m. and 5:00 p.m. unless it is a commercial or industrial burn or it is raining. The fire warden is assisted in his work by the District Forest Fire Chief who works for the Department of Resources and Economic Development Forest Fire Service.

Fire prevention was, again this year, the most important part of the Forest Fire Warden's job. Fire statistics show the need with 72% of the fires caused by smoking, debris burning and children. Smokey the Bear is an important prevention tool but he still needs much help from the public. Parents should warn their children of the hazards of playing with matches. Children tend to forget that a lighted match held in their hand is a potential forest fire.

REPORT OF THE HISTORIC DISTRICT COMMITTEE

RSA 31:89-a states: "The preservation of structures and places of historic and architectural value is hereby declared to be a public purpose. The heritage of the municipality will be safeguarded by (a) preserving a district in the municipality which reflects elements of its cultural, social, economic, political and architectural history; (b) conserving property values in such district; (c) fostering civic beauty; (d) strengthening the local economy; (e) promoting the use of an historic district for the education, pleasure and welfare of the citizens of the municipality."

The standing committee recognizes the desirability of establishing one or more Historic Districts in the Town of Weare pursuant to RSA 31:89. Nevertheless, the Committee feels that more community involvement—a wider range of opinion and comment by citizens of Weare—is also desirable. Naturally, each property owner in any proposed district would wish to be heard.

The Committee expects to have a proposal in the 1975 Town Warrant, and has informally discussed the following areas:

Weare Center, Quaker Street to Moody Pond; Mt. Dearborn Road; the Town Hall, Library and Stone Building; Reservoir Drive, Crosby's to Paige Hill; and the Breed homesteads, Memorial Drive and Duck Pond Road.

Further provisions of the statutes would provide for the establishment of a Commission to regulate the district according to specific rules and regulations adopted at Town Meeting.

The standing committee welcomes immediate reaction from voters of Weare. In this way, we may direct our activities in the coming year.

REPORT OF THE CONSERVATION COMMISSION for 1973

The principal interest of the Conservation Commission in 1973 was the progress and completion of the Engineering study of the pollution problem at Weare Center. The report was completed in October 1973, approved by the Water Supply and Pollution Control Board and accepted by the Selectmen. The report confirms serious pollution of the swamp area adjoining the elementary school grounds south of the Fire Station and pollution of Moody Pond, a condition "extremely hazardous to health". The substance of the report and the need for immediate action will be presented to the Town Meeting March 1974. This engineering project was made possible by a financial grant obtained by the Conservation Commission from the Ford Foundation.

Application for permit for gravel removal was the subject of a public hearing by the Selectmen. Upon their receipt of required information and compliance by the applicant, permit was granted. This was the first action under the gravel ordinance prepared by the Conservation Commission and adopted by Town Meeting March 1972. Many towns in New Hampshire have requested copies of this ordinance.

By statute effective August 26, 1973, the Conservation Commission is given authority to intervene in presenting the town's interest in any application for dredging and filling surface waters or wetlands in the Town. Prior to this statute, the Water Resources Board could have granted permits for dredging and filling without attention to local interests or objections.

The only expenditures from the Conservation Fund in 1973 were $50 to Piscataquog Watershed Association for water pollution testing of that river by high school students; and $57 for leaflets about the Conservation Commission distributed at Town Meeting 1973. Balance in the Conservation Fund is reported elsewhere in this Town Report. The Conservation Fund is authorized for Conservation purposes and may be amplified by gifts, bequests, etc. There has been no charge to the Town for the services and administrative expenses of the Conservation Commission.

The so-called "energy crisis" has demonstrated how vital resources, without adequate control, can be abused. Similarly, natural resources of this town, without public interest and attention to their importance, can be lost or seriously damaged. The Town of Weare has assets that are everybody's job to protect.

CHASE RECREATIONAL PARK
Annual Report 1973

The Park opened May 26th and closed Oct. 15, 1973. Roy Johnson served as gate attendant and special park police, Bernard Phelps as park caretaker and special police on weekends. It can be stated that the Park was fully used when weather permitted. Among the various groups which used the Park Facilities without cost, were: swimming lessons (2 weeks) for approximately 150 children, 4 highly successful band concerts, Fourth of July Fireworks sponsored by the Fire Department, Camp Allen for handicapped children and the Weare Winter Wanderers.

Improvements made at the Park included the following: (1) a shelter constructed adjacent to the snack bar. (2) all buildings and several picnic tables stained with wood preservative. (3) sand bulldozed back to lake shores and sand and gravel put onto shores to expand swimming area and prevent erosion. (4) flags and buoys placed around swimming areas to prevent boat entrance. (5) wharfs and fireplaces repaired. (6) new asphalt pavement at entrance to Park. (7) flag erected last year and flag flown every day weather permitting. (8) latrines with electric lights and white toilet seats installed last year sanitized daily. (9) water at the beaches tested every two weeks at the laboratories of the Water Pollution Commission. All samples showed water to be safe for swimming. (10) water from Park hand pump tested and proved to be safe for drinking. (11) a soft drink dispenser installed in the snack bar. (12) Park grounds mowed and kept in a clean and orderly condition. (13) car sticker system for identification of Weare Taxpayers vehicles continued. Stickers were issued for all cars owned by Weare taxpayers. All such stickers were included in the season rate of $1.00 per immediate family.

The Park Commission established the following costs of admission to the Park:

Weare taxpayers (each immediate family) for the year (includes use of all facilities of the Park)	$1.00
Non-Weare taxpayers over 12 years of age per day (children under 12 years of age per day)	$1.00
Non-Weare taxpayers for use of boat launching facilities (and parking space for car and trailer	$2.00

SOURCES OF REVENUE:

Weare taxpayers season stickers	$440.00
Non-Weare taxpayers gate admissions	2,404.00
Non-Weare taxpayers boat admissions	338.00
*Soft drink dispenser	345.25
Total	$3,527.25

*several cases of soft drinks were stolen from the snack bar and dispenser

	Total	$3,326.37

The above tables show that the Park is supported mainly from income derived from non-Weare taxpayers. It has been the policy that the Park shall be self supporting, hence the budget for the town of Weare provides NO financial assistance to the Park.

While there have been many improvements made at the Park within the income there are major improvements which should be made in the near future. These include a wall to prevent erosion of the bank on the south shore the replacement of diving board and platform, repair of all wharfs, and extension of asphalt pavement in the Park. To achieve these improvements additional income will be required.

The Park Commission members are: Sylvia Brown, secretary, Jane Monroe, Richard Perkins, Leon Taylor and Dr. Fred J. Vintinner, Chairman.

RECORD OF SPECIAL SCHOOL DISTRICT MEETING

The meeting was called to order at 7:35 p.m. by the District Clerk, acting as Moderator, as Mr. James Connor had resigned. Nominations for Moderator were taken from the floor. Gordon Tiffany nominated Grenville Clark III, seconded by Elizabeth Straw. Robert Hyman nominated Robert Munro, who declined the nomination, then made a motion that nominations cease and that the Clerk cast one ballot for Grenville Clark III. Duly seconded. Motion carried and Mr. Clark was duly elected Moderator to finish out Mr. Connor's unexpired term of

The Warrant was read aloud by Mr. Clark.

The Superintendent of Schools described safety hazards at the schools. Mr. Nicknair gave statistics on the present and future school population and Mr. Chornyak, the architect, outlined the design-development program from which to arrive at semi-detailed figures to be presented in March, 1974. After much discussion, Harold Delamater made a motion that discussion cease and the motion be put to a vote. James Craig seconded the motion and asked for a paper ballot. REPORT OF THE SUPERINTENDENT OF SCHOOLS
To the School Board and Citizens of Weare

I herewith submit my first annual report relative to the Weare Schools:

ENROLLMENT

The total enrollment in the Weare Schools if 465, distributed by grades as follows: (1972-73 figures are shown for comparison)

Grade	1972-73	1973-74
1	47	49
2	38	44
3	37	36
4	49	34
5	48	47
6	31	48
7	38	34
8	39	33
9	46	34
10	35	48
11	33	33
12	28	25
	469	465

Facilities for these pupils, especially the Weare High School buildings, continue to adversely affect the range of program offered your youth and the quality of their participation in that program. Weare citizens are urged to review the high school program and facilities sketches developed by last years Advisory Committee for Weare High School. The more recent Weare School Building Committee, appointed by the Moderator for last year's annual School District Meeting, moved the former committee's work to the voters' decision on increased planning. Though, basically, their recommendations were voted down, review their architect's preliminary drawings, review their site recommendations, review the proposed high school program and be ready to reconsider potential solutions to the facilities' deficiencies with your fellow citizens.

STAFF DEVELOPMENT "MASTER PLAN" PROGRESS

Weare citizens were alerted in last year's Annual Report that a change in certification procedures and requirements would become effective July 1, 1975. A key local part of that procedure is a growing local MASTER PLAN.

A 15-member Weare Staff Development Committee is compiling information and data needed to produce that MASTER PLAN for

professional improvement, a PLAN which must also be acceptable to the N.H. State Department of Education.

Committee members are:

James Brown
Mrs. Hiedi Clow
Mrs. Lillian Day
Mrs. Margaret Downes
Mrs. Janet Jenkins
Mrs. George Kendrick
Andrew Messner
Mrs. Nellie Perrigo
Robin Plante
Mrs. Marcia Robinson
Mrs. Jean Stafford
Gordon Traver
Frederick Vintinner
Carroll Warren
Thomas Wright

Sub-committees, through appropriate survey devices, are determining the system's educational needs and the staff's professional improvement desires. Data for formulating the 1st draft of the MASTER PLAN should be compiled by the end of the 1973-74 school year.

INSTRUCTIONAL DEVELOPMENT INSTITUTE (IDI)

Five Weare staff members joined 38 other educators from S.U. No. 19 and 4 from the Concord School District in an IDI held at the new Media Center, Goffstown Jr.-Sr. High School, April 2-6, 1973. The Institute, a forty-hour, five-day validated training program, is designed to provide skills in applying a systematic approach toward developing practical solutions to learning and teaching problems.

Four leaders from the N.H. State Department of Education specially trained to conduct the structured, carefully programmed and highly media-supported sessions . . . there were four other institutes conducted in the State . . . helped the five Weare teachers search out alternative approaches to reading improvement for students grade 1 through 12.

All costs except one-half of the substitutes' pay were provided by a grant funded by the U.S. Office of Education as part of its National Special Media Institute Project.

ACKNOWLEDGEMENT

I wish to extend my sincere appreciation for the aid and cooperation provided me by the principal, teachers, school board members and citizens of Weare as I have commenced my work as the Districts' Superintendent, a complex and demanding position requiring cooperative performance. Meeting the requirements of cooperative performance equally well have been personnel at the Supervisory Union Office: Howard Wagner, Assistant Superintendent of Schools; William Trotter, Business Administrator; and Mrs. Ruth Henk, Mrs. Florence Schricker, Mrs. Sally Austin and Mrs. Eleanor Duclos of the office staff.

You are invited to visit the new Supervisory Union quarters at Goffstown's former White School on School Street. Renovations of the first floor was done at Union expense and has provided pleasant, modern, and very functional office space. My office is open to your inquiries and suggestions. Stop in when you visit.

Respectfully submitted,

WEARE ANNUAL SCHOOL HEALTH SERVICE REPORT

Tuberculin tests were given to all but a few members of the school staff by Miss Constance Martin, R.N.

Physical examinations with blood tests and throat and stool cultures were given to the cafeteria workers.

A Health Careers Club was formed with freshmen high school girls making up the membership. Activities included field trips to the Elliot Hospital, the Easter Seal Rehabilitation Center, the Concord Hospital, and the New Hampshire Hospital. In-school discussions included various health problems and health careers. Membership, however, was small and the club was disbanded because of lack of support and interest before the end of the school year.

A nutrition workshop held in Goffstown which was sponsored by the National Dairy Council, was attended by some of the Grammar School teachers. As one result of the workshop, the Dairy Council supplied some beautiful materials suitable for use in teaching basic nutrition to first through third graders, and made material available for other grade levels. Some of this material was used in a beginning class with first graders.

A series of three immunization clinics was held at the Weare Grammar School as a result of the measles alert in New Hampshire. Measles, Rubella, DPT and Polio vaccines were offered. The clinic was conducted by Dr. Francis Brown, the State Board of Health and the School Health Service. Ninety-nine children received immunizations.

A dental Health Conference was conducted under the sponsorship of the Weare PTA by Mrs. Susan Dudley. Fifty-one children from first through sixth grades received care which included cleaning the teeth and the application of topical flouride.

A movie on menstruation was shown to fifth and sixth grade girls

and followed by questions and answers, and the distribution of appropriate literature.

Pre-school registration was held on May 23rd in conjunction with a pre-school vision and hearing screening program for four, five, and six year olds. The screening program was sponsored by the State Department of Health and conducted by volunteers from the PTA under the direction of Mrs. Natalie Smith, R.N.

We were also fortunate enough to obtain a dental hygienist from the State Dental Bureau who examined the preschoolers individually and discussed dental hygiene with them and their parents.

Thirty-six children were registered for first grade for September, 1973, and an additional seven children were screened for vision and hearing defects. Of the forty-four children screened, two children failed the vision screening and one failed the hearing screening. All have been referred for appropriate follow-up care.

Tuberculin tests were offered to all children who will be entering school in September 1973 to assist in the compliance with State law which now requires each child to have been tested for tuberculosis within a year prior to school entry. Heaf multiple puncture tests were given at the Weare School Health Office on June 23rd. Only twelve children took advantage of this clinic. None reported a positive reaction to the test.

A second date for pre-school registration was set for August.

An attempt to set up dates for physical examinations for students who will be taking athletics during next year, will be made in August.

The cooperation of teachers, parents, the school board and the Superintendent's office during this school year, has been greatly appreciated.

Respectfully submitted,
Margaret Downes, R.N.
